Private Separation Planned for Heiress

ondon, July 21.—(AP)—Attors for Count and Countess Haugwitz-Reventlow were understood today to be planning a private separation under which the countess, the former Barbara Hutton, would receive custody of their two-year-old son, Lance, and the count would have permission to see the boy at intervals.

Two Danish lawyers retained by the Woolworth heiress have arrived to collaborate with her London attorneys.

Both the count and countess were understood to be desirous of avoiding further court publicity following the sensationla hearing July 5 in Bow street police court in which the count was accused of threatening his wife and an unnamed "London society gentleman.'

This charge was dismissed later following an agreement between counsel for both sides.

Under the present plan it is understood the count will be allowed to keep in touch with Lance's education-one of the matters known to have caused a rift between the

Wants Congress to Investigate James Roosevelt's Income

Poughkeepsie, N. Y., July 21-(AP)-Rep. Hamilton Fish, Jr., R-NY), outspoken New Deal critic, was on record today as declaring that the next Congress "should insist" on investigating the income tax and insurance activities of James Roosevelt, son of the President.

Summer Lassitude Grips State House

Springfield, Ill., July 21-(AP)-Mid-summer lassitude gripped the statehouse today with activities of the government reduced to a vacation-season minimum

Governor Horner's departure for a two or three weeks' rest in Wisconsin found all other elective state officers also away from the capital. By remote control from his farm near McLeansboro, Lieut, Gov. John Stelle was acting governor for the fourth time since he took office a year and a half ago.

Most of the state offices carried on with subordinates in charge and with staffs reduced by a third to one-half by vacation absentees.
